

How do I view today's performance for market indexes and securities I'm watching?

The **Portfolio** in Quicken's **Investing** tab can display a quick overview of your investment information.

1. Click the **Investing** tab.
2. Click the **Portfolio** button.
3. On the **Portfolio** page:
 - A time/date stamp indicates when you last downloaded price information.
 - Choose Show: **Quotes > Grouped by: Accounts > As of: [Today's date]**. The **Portfolio** will then shows the **Day Change** and latest price for securities you've [included in your Watch List](#). Market indexes [can be monitored as part of your Watch List](#).
