

# About researching investment opportunities online

One of the smartest things you can do is integrate the vast information resources of the Internet with the power and flexibility of Quicken to help you make better-informed financial decisions. Use Quicken's screening and evaluation tools to find the stocks and mutual funds that best fit your investing profile, expected return, and risk tolerance. (Internet access required).

## What can I do?

- [How do I view Morningstar ratings for funds I'm tracking?](#)
- [How do I screen stocks and mutual funds before investing?](#)
