

# How do I view Morningstar ratings for funds I'm tracking?

How are the funds in your portfolio doing relative to others in their category? The Mutual Fund ratings from Morningstar snapshot contains an at-a-glance summary of category, rank, rating, risk, and return information. Links to [Quicken.com](https://www.quicken.com) allow you to quickly compare a specific fund with other, similar funds.

1. Click the **Investing** tab.
2. If necessary, click the **Allocations** button at the top of the page.
3. Scroll until you see the **Mutual Fund Ratings from Morningstar** snapshot.
  - The list is subtotaled by funds you own (Funds in selected accounts) and funds in your **Watch List**. Filter the list by using the **Show Accounts** and **Choose Securities** options at the top of the window.
  - To find and research other mutual funds, click **Find Top Funds** and follow the on-screen instructions (internet access required).
  - A five-star rating is Morningstar's top rating.
