

# What is a budget category?

## What is a budget category?

A budget category is simply a Quicken income or expense category, or transfer, that you track in your budget. To get the most out of your budget, make sure to [categorize](#) all transactions you enter in Quicken. Quicken can [help](#) to assign categories in most cases.

For more information, see:

- [Add or remove budget categories](#)
- [Categorizing transactions](#)
